Q CELLS AUSTRALIA PRODUCT LINE-UP

Q CELLS' world-renown and award-winning modules are designed for and tested in real Australian conditions.

Q CELLS' Q.ANTUM solar cell technology, found in all our Australian products, is the ultimate of its kind. This state of the art technology captures previously unused sunlight, reflecting it back into the cell where it can be converted into solar energy.

Perfected with over a decade of research and development. Supercharging cells to soak up more sun to achieve world record levels of efficiency. We guarantee high performance across every class in winter, in summer, under clear or cloudy skies and extreme weather. Decade after decade.

Q CELLS offers PV modules to fit virtually any application or situation. All PV modules are backed by 5 days a week local support available at 1-800 Q CELLS.
